Hello Mr. Dickinson,
Please find attached the UFF USF GAU's proposed emended and amended language to articles 2, 12, and 23 of our Collective Bargaining Agreement. I offer you this proposal now, without supplemental data, since we both have access to the same numbers, and since time is of the essence as the holiday season amplifies the already critical financial situation of those in our bargaining unit. Supplemental data will follow.

In Friday's meeting, you noted that your team will need ten (10) days in order to review these proposals and offer a response. Given this timeframe, I kindly ask for meeting availability in the week before Thanksgiving.

Sincerely,
Megan Flocken
